Check Out Opening Day

The first day of school is an exciting time to return to the hallowed halls of Coventry High School. In the midst of the confusion, old friends and new acquaintances can be found. The familiar room numbers, teachers, and lockers of the previous year give way to new rooms, faces, and grading systems. It can be a time of dread or a time of anticipation of the year to come. Of all the students present on the first day of school, perhaps the most lost and frightened are the freshmen.

Despite the maps, advice, and the several copies of their schedules that freshmen carry around on the first day, the initiation into Coventry High School can be very confusing. The freshmen are not just entering a bigger building with different teachers, they are beginning a whole new way of life. There will be no more teachers looking over their shoulders every moment of the day. Instead, there will be much more independence and responsibility, and many activities in which to get involved. The first day includes the frustration of trying to get a locker open, the confusion of trying to find the right classes, and the embarrassment of getting lost. Most freshmen are able to take it in stride, knowing that they will be confident seniors someday.

Check Us At Work

Expenses, expenses, expenses! The life of a high school student is by no means inexpensive. Money flies out of pockets in the form of class rings, proms, cars, dance tickets, and other sundry items. Afternoon, evening, and weekend jobs are vital to the active high school student. Students find jobs at local supermarkets, fast food and other restaurants, and assorted businesses.

Money is not the only benefit of a part-time job. Jobs provide valuable work experience for high school students. Students get a sense of satisfaction from their jobs, proving they can do a job well and survive in the real world. The workplace is also a fine place to meet new people from all walks of life. Many lifetime friends are made between the punchings of the time cards. Work is an important part of the life of a high school student.

Coventry Oakers can be found all over the town and the state, earning money for high school life and for their college educations. Coventry High School students also help the community run more smoothly by doing jobs nobody else seems to want. Next time you stroll into a local place of business, check out the Oakers at work!

We entered *CHS* as Freshmen with high hopes. It was a big jump, but with the help of our advisor Miss Coyle and our president Kerry Dyson, we survived the year.

As Sophomores we continued to look up to the upper-classmen for leadership. With Miss Coyle's guidance, we kept our heads up and successfully completed another year.

As Juniors, with Lenora D'Aleno as president and Mrs. Cyr as our advisor, we gained respect and responsibility. We received our class rings in December and cheered the Oakers in the Super

Bowl. On Class Day, we became Seniors. The Class of 1987 had arrived. Our senior year was the best of all. Tom Swanson was elected president and Mrs. Robertson was our advisor. The Senior Ball was held on June 5th at the Hearthstone Inn and we realized that this was our last social event as a class. Fond memories rushed back to us on June 11th. It was Class Day. We turned over the gavel of leadership to the Class of 1988. On June 13th, at the Warwick Musical Theater, with diploma in hand, we were ready to face the world.
