81st Edition

Changing Gears

Changing to a freshman, changing to a sophomore,

Changing to a junior, to a senior, to a college freshman

Around the cycle goes

Changing with times, with the clothes, with the language

Changing with the people, with the land, with the world

It keeps on going

Changing with technology, with the jobs, with the industries

Changing with stereotypes, with diseases, with war

On it goes

Changing with the government, with science, with discover,

Changing with the weather, with hope, with fear

It goes on changing

Everything changes and everything is new

Do me just one favor...

Don't ever change you.

A message from your Principal...

Michael J. Hobin

ss of 2015

theme of our Knotty Oak yearbook is "Changing Gears." Gears, and the mechanisms that drive them, have existed since the invention of rotating machinery. Different gears have powered the textile revolution, industrial revolution, automobile revolution, the space race, and adapted to the current consumer electronics revolution.

"gears" of your life have been your family, friends, school, and community. Like gears, the support of your family and friends have powered you through trying times and roared with applause at your success. Like gears, your schooling, including both academics and extra-curricular activities, has put in place mechanisms for future success. Like gears, your school community has adapted to meet the demands of Twenty First Century learners. Think of some books!

your family, friends, school and community; your gears, have afforded you opportunities to develop your talents. I challenge you to take advantage of the opportunities you have been provided. Be willing, able and committed to "change gears" as you continue your studies, serve your country, become parents and continue your journey through life. First constructed of wood, and powered by water, gears have adapted to modern technologies and demands. Adapting to new demands, gears are still changing the world. Now go and do the same!

has been a pleasure to be your Principal. I wish a lifetime of success and happiness.

An excellent principal if there ever were one, Mr. Michael J. Hobin has spent both 2014 and 2015 doing nothing but helping his students however he can. Whether he be actively seeking students in trouble out to help them along with their grades or encouraging a happy, exciting, and fulfilling school life for all students at CHS, there isn't a doubt in anyone's mind that Mr. Hobin is a principal unlike any other.

To the left are some of the many examples of Mr. Hobin encouraging and helping the students of CHS, taking action not only to help students with their grades and success in school, but making a connection to the students of the school.

Without a doubt, every student, teacher, and facility member wouldn't argue that having Mr. Hobin has been nothing but a boon for the school.

ange, one word and six letters to describe the class of 2015. Early September of 2011 we took our first steps into CHS as freshman. Lucky enough Hurricane Irene delayed the start of school leaving us with what seemed like an endless summer. We came into CHS knowing our class would be the change. Each and everyone of us so unique and so irreplaceable we knew we'd set the greatest examples for our underclassman and even the upperclassman to follow. We began the year off by meeting our soon to be best friends, amazing teachers, and starting our legacy. We experienced our first spirit week, starting our portfolios, first football game, girls powderpuff, varsity revue, plays, so much more to make all around oakers. As we adapted to being new oakers, freshman year came and went and Sophomore year came right around the corner. This year we were even more motivated. We became more comfortable with our class and even bonded with the juniors and seniors! Sophomore year was our first look into graduation, we began our capstones. Although we couldn't foresee the actual purpose of it we knew it had to be done. I mean after all we wanted to walk across the stage as a whole, as a class, the class of 2015. As junior year snuck up on us faster than ever, it was time for us to show colleges our capabilities! We took our NECAPS, finished up our portfolios, and pushed ourselves to our limits to make our grades the best. We wanted to be our absolute best, we wanted to be the change. We wanted to be the class that others classes remember. We are remarkable. Now that senior years and a new change is upon us; graduation and college. Before we even came back this year, we almost lost all that was near and dear to us when it came to the school. With some picketing of town meetings, and a lot of help from the teachers, we managed to keep our extracurriculars.

The funny thing about us is that we can still sort of remember the nineties, in fact, we still think they were ten years ago. They weren't. Some of our first memories include overalls and velcro sandals, Barney and the teletubbies, and for some; faint memories of 9/11. Disney's Hercules came out in 1997. As children we learned from Arthur but had no clue what animal he was for the longest time. We learned all of our science from Bill Nye the Science Guy and Miss Frizzle from the Magic School Bus. We read books like a Series of Unfortunate Events, and the Goosebumps series. As preteens we found ourselves watching the Amanda Show with dancing lobsters, and Disney Channel when it was actually good. Now older, we grew to watch MTV, ABC Family, and tbs with shows like Pretty Little Liars, reality tv, and the Big Bang Theory. Now we read 1984 and Slaughterhouse Five. Recreational have become more competitive and given us a path to college. Our interests and passions will now soon become our majors and careers. We've come a long way just like those before us and those to come soon after. We have so many opportunities ahead that we must choose from. Our pasts have shaped us into who we are today, and who we may become.

Dear Class of 2015,

Congratulations! Over the course of thirteen years (K-12) you have demonstrated the skills and competencies necessary to transition to the global economy, an economy that is complex and requires you to think critically, problem solve and apply technology skills.

This year, for the first time in Coventry Public Schools history, students were issued a personal technology device (Chromebook). Undoubtedly, anytime access to the digital world dramatically changed the way you learn, communicate, collaborate and create content. In a very short period of time, technology was infused in our school day and quickly became a fabric of your learning.

The world you are about to enter is complex, competitive and challenging, but extremely rewarding. It requires continued growth in not only what you know, but how you learn and communicate.

Enter the next phase of your life with confidence and a sense of eagerness to accomplish great things. Continue to be a lifelong learner. Challenge yourself regularly. Enjoy family and friends. Stay connected to Coventry High School and the Town of Coventry. And, don't forget you are an Oaker!

I wish you all the success and happiness in the world.

Sincerely,

Dr. Michael Almeida

a YEAR OF DISCOVERY

@ Coventry High School

The world of Coventry High School has been alight with progress. With the addition of Chromebooks to the classroom, students and teachers alike have found new ways to access information and study.

To say Coventry High's students have been enthusiastic about their Chromebooks would be an understatement. The students have been given new life by the Chromebooks, making them all the more invested in their education and it isn't just students who are enthusiastic.

Teachers, too, have found themselves thankful for the Chromebooks. Now able to assign work via the online classroom, they find themselves able to easily communicate with students and ensure that even absent students are able to complete their work.

This program is very unstructured and meets during the last advisory of every week in the gym. There is music and a variety of activities to include basketball, volley-ball or soccer, badminton, Hula-hoops, Frisbie, catch, or just chatting or listening to music on iPODs etc. The point is to put struggling or disabled students together with more typically developing, successful, older peers.

Senior volunteers meet with students in a group discussion, then engage in a challenge activity out of the Project Adventure™ curriculum. Following these activities is an informal snack and recreation period. We meet after dismissal at the middle school weekly for the initial 4 weeks and then monthly throughout the rest of the year. Middle school students often ask if they can participate again the following year. This year's HS volunteers:

Fall Play

Lizzie Borden took an axe and gave her mother forty wacks. When she saw what she had done, she gave her father forty-one...

The fall play of Lizzie Borden of Fall River was a chilling mystery about the murders of the Borden. Though all have a theory, director Mr. Wilkinson kept the audience guessing even after the curtains closed. Maddison Cook-Hines, senior, and Sabrina Peltier, freshman, took the show to a whole new level of sisterly love and betrayal. This production, three months in the making, took a lot of time and energy, but all agree that it was well worth it. This Trinity worthy performance was performed in mid-November and many seniors are pleased with all the new freshmen interested, feeling they are leaving Coventry Drama in good hands.

Here at Coventry High School, we invited Coventry 8th grade middle schoolers to come in and view what their environment will look like by next September. We showed them what to expect, how everything works, they got to view their curricular and extra curricular options, and the night couldn't have been complete without a drama club FLASH MOB. That night was a nice gesture for the 8th graders to get them ready for the start of their lives of becoming high schoolers.

You have brains in your head.
You have feet in your shoes.
You can steer yourself
in whatever direction you choose.
You're on your own. And you know what
I know.
And YOU are the guy who'll decide where to
go.
Dr. Seuss

"Live today. Not yesterday. Not tomorrow. Just today.
Inhabit your moments. Don't rent them out to
tomorrow. Do you know what you're doing when you
spend a moment wondering how things are going to
turn out with Perry?"

You're cheating yourself out of today. Today is calling
to you, trying to get your attention, but you're stuck on
tomorrow, and today trickles away like water down a
drain. You wake up the next morning and that today
you wasted is gone forever. It's now yesterday. Some
of those moments may have had wonderful things in
store for you, but now you'll never know."

Think thoughts that ne'er brain has rung,
Walk in paths that none have trod,

Claim him your own who's everywhere disclaimed,
Love all with love that none have felt and brave

Maturity is a bitter disappointment for which no remedy exists, unless laughter could be said to remedy anything."

Kurt Vonnegut

I am convinced that most people do not grow up... We marry and dare to have children and call that growing up. I think what we do is mostly grow old. We carry accumulation of years in our bodies, and on our faces, but generally our real selves, the children inside, are innocent and shy as magnolias."

Maya Angelou, Letter to My Daughter

We dreamed of growing up when we rested our young heads on our downy pillows and looked up with wonder at the glow-in-the-dark stars stuck to our ceiling, wondering what the world looked beyond our own home, beyond the world that had been so meticulously created for us

One day, we wake up and realize we're not children anymore. Perhaps it's after we graduate elementary school, or maybe it's high school, or maybe it's when we have our first kiss or start to worry about money or death. Whenever it is, we do grow up. We're forced to. There comes a time that we're no longer allowed to be dependent on our parents. A time when our innocence disappears.

When I was younger, I could remember anything, whether it had happened or not; but my faculties are decaying now and soon I shall be so I cannot remember any but the things that never happened. It is sad to go to pieces like this but we all have to do it. — Mark Twain

I was young and foolish then; now I am old and foolisher.

— Mark Twain, a Biography
